Overview

Zebra Scanner SDK for .NET MAUI enables a developer to build native applications to connect and control Zebra Barcode scanners over a Bluetooth connection (no cradle involved) on iOS and Android devices from a single, shared C# codebase.

Functionality,

- Discover, connect, and disconnect scanners.
- Barcode reading.

Device Compatibility

For the compatible devices list, please visit the following page.

<https://www.zebra.com/us/en/support-downloads/software/developer-tools/xamarin-wrapper-for-scanner-sdk-for-android-and-ios.html>

Version History

Version 1.0.0 – 01/2024
