---------------------------------	----------------

Installation Requirements

This SW is intended for all WM 6.5, CE 6.0 and CE 7.0 devices

Installation Instructions

For Normal installation of the PATCH:

1. Copy "**ExportDeviceInfo_v1.3_WB.cab**" file to the application folder/SD card on the device by using Microsoft Active Sync or Mobile Device Center.
2. Navigate on the device to the application folder/SD card.
3. Deploy the solution by tapping on the "**ExportDeviceInfo_v1.3_WB.cab**" file.
4. After successful deployment of the "**ExportDeviceInfo_v1.3_WB.cab**" file, device will do an automatic warm boot.
5. Run the application "ExportDeviceInfo_v1.3.exe"
6. DeviceInfo.csv file will generate in few seconds in \Application directory.
7. Copy the csv file from device into PC and you can see the device information by opening the file.

For MSP or REMOTE installation of the PATCH:

1. Set up MDM (MSP, Soti, Airwatch, etc..) to send "**ExportDeviceInfo_v1.3_NB.cab**" file to the application folder of the device.
2. To deploy the solution, setup in MDM to install the cab file "**ExportDeviceInfo_v1.3_NB.cab**" file.
3. Changes will take effect after a manual reboot of the terminal or if MDM reboots device.
4. Run the application "ExportDeviceInfo_v1.3.exe"
5. DeviceInfo.csv file will generate in few seconds in \Application directory.
6. Copy the csv file from device into PC and you can see the device information by opening the file.
