

## Patient Identification Wristbands

### Positive Patient Identification from admission to discharge

Positive patient identification across the entire patient journey continues to pose a major challenge for healthcare organizations around the globe. Wristbands are particularly critical for safe and accurate patient identification; however, many issues affect their performance:

- Illegibility due to small font, or bands that will not scan properly;
- Ink that fades with exposure to water, alcohol, or hand sanitizers;
- Bands that are too narrow to accommodate the printed ID label, or that fall off easily;
- Lack of a clear covering to protect the information from degradation, and the list continues.

Any of these issues will introduce errors into the workflow, compromise patient safety, and force clinicians to use workarounds with often dire consequences.

Zebra's complete suite of patient identification **wristbands** is the right treatment for all those ailments. They help protect the well-being of patients and the integrity of the healthcare system.

## Ensure optimal identification at every stage of the patient journey with Zebra Certified Supplies

Connect the right patient to the right care, every time. Zebra’s highly durable Laser and Thermal wristbands reduce the need for rebanding, helping eliminate identification errors. They can be scanned without disturbing your patients, and resist smearing, peeling, and jamming, providing:

- **Improved Patient Identification** – minimizing unscannable wristbands, to ensure validated medication administration and sample identification
- **Reduced Nursing Workarounds** – ensuring the use of system-validated patient care that improves quality and reduces unnecessary workaround
- **One-stop Shop for all Patient Identification Needs** – Zebra’s broad product portfolio of laser and thermal wristbands supports a wide number of applications, including neo-natal, maternity and outpatient services, as well as special patient condition identification

### The Z-Band Benefits

-  Up to **6X** more durable than the leading competitors
-  MR safe
-  Latex-Free

## Top 5 reasons to buy Zebra’s wristbands

## Welcome to patient identification peace of mind

Wristbands are a vital component of the patient identification process. At Zebra, all patient identification wristbands undergo severe stress testing to measure resistance to a wide range of substances that can degrade readability, to ensure they withstand the rigors of the busy hospital environment.

With our wide range of direct-print, barcoded, durable laser and thermal printable wristband solutions and special patient condition identification solutions, health organizations can ensure adult, pediatric, and infant patients are accurately identified throughout their hospital stay. See the choices below.

### Z-Band® Wristband Product Portfolio

Our direct thermal Z-Brand wristbands are the most durable, comfortable and easy to use solutions for patients, clinicians and admissions. During our 22 years providing thermal wristbands, we have frequently improved them based on customer feedback and new hand sanitizers in the market.

Z-Band UltraSoft	Z-Band Direct	Z-Band Newborn	Z-Band QuickClip™	Z-Band Fusion
<ul style="list-style-type: none"> <li>• One of the softest direct thermal wristbands in the market</li> <li>• Available in adult, pediatric and infant sizes; white</li> <li>• Maternity ID Solution option (1 adult and 1 infant wristband) enables the identification and association of a mother and her newborn baby.</li> <li>• Adhesive closure</li> <li>• Resistance to hand sanitizers</li> </ul>	<ul style="list-style-type: none"> <li>• Classic wristband</li> <li>• Adhesive closure</li> <li>• Available in adult, pediatric and infant sizes and 7 colors</li> <li>• Resistance to hand sanitizers</li> </ul>	<ul style="list-style-type: none"> <li>• Soft polypropylene material; perfect for delicate skin</li> <li>• Adjustable band fits the smallest patients</li> <li>• Flat print area ensures ease of scanning</li> <li>• Adhesive closure</li> <li>• Available in 2 versions: Standard and Soft (features a soft nylon backing)</li> </ul>	<ul style="list-style-type: none"> <li>• Classic wristband</li> <li>• Clip closure</li> <li>• Available in adult and infant sizes</li> <li>• Color clips available in 6 colors</li> <li>• Resistance to hand sanitizers</li> </ul>	<ul style="list-style-type: none"> <li>• For long-term care facilities</li> <li>• Self-laminating design preserves patient data for longer usability</li> <li>• Advanced shape and design makes assembly easy</li> <li>• Flat print area ensures ease of scanning</li> <li>• Adhesive closure</li> </ul>

### LaserBand® Wristband Product Portfolio

Zebra’s self-laminating LaserBand direct-print laser wristbands enable printing wristbands and labels on one sheet utilizing existing laser printers. LaserBand® Original, was the first direct print self-laminating laser wristband in the market. Over the years, Zebra’s Supplies R&D continued developing new and improved solutions.

PATIENT IDENTIFICATION WRISTBANDS

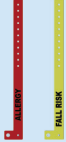

**Infant Identification Solutions**

Identifying and wristbanding infants is a sensitive issue. While healthcare facilities go to great lengths to properly identify infants, clinicians are also concerned with the comfort and durability of the bands. Zebra also offers a complete line of soft infant wristband accessories for use with Z-Band® and LaserBand® wristbands to ensure comfort.

Comfy Cuff	Comfy Cuff Infant Swaddle Band	Vinyl Infant Wristbands
 <p>This soft, foam cuff features an adjustable Velcro® closure ensuring infant comfort.</p>	 <p>Tyvek band creates an extension between the ComfyCuff and LaserBand®2 Advanced Infant ID tags or Z-Band® Direct Soft Infant Wristband to make identification of swaddled babies quick and easy.</p>	 <p>These latex-free, soft, flexible vinyl wristbands are for use with LaserBand®2 Advanced Infant ID tags. The narrow width allows some models of “Abduction Prevention Systems” to be attached. They are available in clip or self-locking closure.</p>

**Patient Condition Alert Solutions**

Enable quick identification of special patient conditions with color-coded wristbands and labels from Zebra. Our solutions enable compliance with state, regional and local color-coding standards for special patient conditions such as allergy, DNR, fall-risk, latex-allergy and restricted limb.

Spot Alert Labels	Slim Alert Wristbands	Tyvek® Alert Wristbands
 <p>Spot –alert color-coded labels can be adhered to any wristband and feature a strong adhesive that causes the label to tear if tampered with.</p>	 <p>These color-coded vinyl clip-closure wristbands are 0.625” x 10” and are pre-printed with patient conditions.</p>	 <p>These color-coded Tyvek® adhesive closure wristbands are 1” x 10” and are pre-printed with patient conditions.</p>

Zebra is committed to providing healthcare organizations with wristbands that meet our highest standards for image durability, scannability, and comfort. They are designed, produced, and rigorously tested to ensure optimal performance in clinical workflows, helping reduce medical errors and ensure better patient safety. For industry-leading quality, service, and thermal printing expertise, choose Zebra Certified Supplies.
